

THINK LIKE A MARKETING STRATEGIST

Grow This Brand • Interactive Educational Web Application Manual

1. Executive Summary & Educational Intent

The **Think Like a Marketing Strategist: Grow This Brand** application is an interactive simulation designed to teach beginners core marketing principles. Rather than generating simple posts, it teaches users *how marketers think*—focusing on target audience definition, channel selection, content pillars, 30-day roadmaps, and crisis/PR response.

2. Supported Operating Modes

Mode	Target Subject	Core Focus & Mechanics
 Use My Own Business	Custom Commercial Business	Defines customer avatars, competitors, revenue models, and commercial messaging.
 Build My Personal Brand	Individual Professional / Creator	Focuses on expertise, authentic stories, personal authority, and admired creators in the niche.
 A New Client Has Arrived	Randomized Business / Creator	Assigns a client brief with specific constraints, budgets, and marketing challenges.

3. Application Flow & User Journey

- Welcome & Mode Selection:** Choose between a Custom Business, Personal Brand, or Random Client.
- Audience & Positioning:** Define target audience pain points, industry niche, and core competitors/admired peers.
- Platform Strategy:** Select 2–3 optimal distribution channels (LinkedIn, X/Twitter, YouTube, Instagram, TikTok, Newsletter) with channel fit explanations.
- Content Pillars & 30-Day Roadmap:** Pick exactly 3 repeating content pillars and generate a structured 4-week execution roadmap.
- Market Disruption Event:** Face a randomized marketing event (viral competitor drama, podcast invite, product flaw report) and choose a response.
- Final Growth Report:** Review growth metrics, strategy breakdowns, 3 core marketing lessons, and a master Claude prompt.

4. Prompt Engineering Integration ("How to ask Claude")

Every section includes an interactive prompt template teaching users how to use Claude for marketing strategy:

Example: Content Calendar Prompt

Act as a Lead Content Strategist. Create a 2-week social content calendar for [Brand Name].

Platforms: [Selected Platforms]

Selected Content Pillars: [Selected Pillars]

For each post provide:

1. Attention-grabbing Hook (Line 1).
2. Core message summary.
3. Call to Action (CTA).
4. Content format (e.g. Carousel slider, short text post, reel script).

5. Technical Stack & Deployment

- **Framework:** React 18 & ReactDOM via CDN (Babel JSX transpilation in-browser).
- **Icons & Styling:** Lucide Icons CDN, Custom CSS dark modern UI variables.
- **Single File Architecture:** Entire application bundled inside one standalone day32 .html file with zero build step or npm dependency.
