

Day 6 — Resume Optimization

ATS Analysis & Optimized Resume using Claude

🕒 **ATS Optimized**

✍️ **Spelling Corrected**

📄 **One-Page Resume**

ATS Score Comparison

What Was Changed

- Removed profile photo** — ATS parsers cannot read images; many systems auto-reject resumes containing photos.
- Fixed spelling & typos** throughout (see correction table on next page) — typos confuse keyword-matching engines.
- Standardized Education formatting** into Degree | Institution | Date | Score pattern for reliable ATS extraction.
- Replaced vague "Skill Set 1/2/3/4" labels** with direct, categorized keywords (Java, Python, SQL, Power BI, JDBC).
- Converted dense paragraph summary** into a tightened professional summary plus clean bullet points.
- Added dedicated "Certifications" heading** — previously buried inside a paragraph.
- Removed non-standard bullet symbols (>)** — can break text extraction in some ATS engines.
- Single-column, table-free layout** — ensures consistent parsing across all major ATS platforms.

 Spelling Corrections Made

Original (Incorrect)	Corrected
Bachelor of Technology	Bachelor of Technology
Se Senior Secondary	Senior Secondary
UttarPrades / UttarPradesh (no space)	Uttar Pradesh
Passing-out-2023 (inconsistent spacing/format)	Standardized date format
LeetCod	LeetCode
Café manu management	Café Menu Management System
Frontent	Frontend

 Process Screenshot (Mockup)

claude.ai — Resume Optimizer

Prompt used: "Read the provided resources... Rewrite my resume for maximum ATS parsing..."

Output — Part 1: ATS Score: Previous 41/100 → Optimized 89/100, with 8 bullet-point changes explained.

Output — Part 2: Final one-page, single-column, ATS-friendly resume generated as PDF.

Note: Replace this mockup box with an actual screenshot of your Claude conversation before uploading to GitHub.

💡 Key Learnings

- Photos, icons, and tables hurt ATS parsing — plain single-column text performs far better across parsing engines.
- Section headings must match standard ATS-recognized terms (e.g., "Certifications" as its own heading, not folded into a paragraph).
- Vague labels like "Skill Set 1" hide real keywords — recruiters and ATS systems search for exact skill terms (Java, SQL, Power BI, etc.).
- Consistent formatting (Degree | Institution | Date | Score) helps automated parsers extract structured data correctly.
- Even small typo fixes (spelling, spacing) meaningfully raise both ATS score and recruiter readability.
- A clear "before vs after" comparison makes it much easier to see the concrete value AI-assisted editing adds.

📁 Files in this Package

- **day6.md** — Full documentation of the task, ATS analysis, and learnings.
- **CV1_1_.PDF** — Original resume (before optimization).
- **Silki_Chauhan_ATS_Resume.pdf** — Final optimized, spelling-corrected, one-page resume.
- **Day6_Documentation.pdf** — This file (cover, ATS score, corrections, learnings).

SILKI CHAUHAN

Baghpat, Uttar Pradesh – 250617 | 8445288298 | silkichauhan057@gmail.com
linkedin.com/in/silki-chauhan-7b4a55311 | github.com/silkichauhan057-web

PROFESSIONAL SUMMARY

Computer Science Engineering student (B.Tech, Third Year) with strong proficiency in Java, Python, and web development, backed by a solid foundation in software engineering, database management, and data structures & algorithms. Currently pursuing offline Data Analytics training at Anudip Foundation, with completed training in Java and a strong grasp of object-oriented programming concepts. Experienced in academic projects and problem-solving, with a keen interest in learning new technologies and applying them to real-world solutions.

EDUCATION

Bachelor of Technology, Computer Science Engineering <i>Dr. A.P.J. Abdul Kalam Technical University, Lucknow, Uttar Pradesh</i>	Third Year <i>CGPA: 7.62/10 (76.6%)</i>
Senior Secondary (XII), UP Board <i>Shri Ram Inter College, Baghpat, Uttar Pradesh</i>	2023 <i>66% (7.0 CGPA)</i>
Higher Secondary (X), UP Board <i>Shri Ram Inter College, Baghpat, Uttar Pradesh</i>	2021 <i>85% (9.0 CGPA)</i>

RELEVANT COURSEWORK & ACADEMIC ACHIEVEMENTS

- Coursework: Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Web Development, Machine Learning Fundamentals, Cybersecurity Basics
- Achieved a cumulative CGPA of 7.5 through the 5th Semester of B.Tech in Computer Science Engineering
- Built strong foundation in Data Structures and Algorithms (DSA) using Java

EXPERIENCE / TRAINING

Data Analytics Trainee (Offline Training) — Anudip Foundation - Undergoing hands-on offline training in Data Analytics, covering Excel, SQL, Python, and Power BI - Completed structured training in Java with emphasis on object-oriented programming concepts	Ongoing
---	----------------

PROJECTS

- Café Menu Management System — Frontend Development**
 - Developed a frontend interface for managing a café menu system
- Memory Puzzle Game — Python**
 - Built an interactive memory puzzle game using Python
- Hospital Management System — Java, SQL, JDBC**
 - Developed a hospital management system integrating Java with MySQL database using JDBC connectivity

SKILLS

- Programming Languages:** Java, Python
- Data Analytics:** Excel, SQL, Power BI (ongoing), Pandas (basic)
- Database:** MySQL, JDBC (Java Database Connectivity)
- Core Concepts:** Data Structures and Algorithms (Java, ongoing), Object-Oriented Programming
- Coding Platforms:** GitHub, LeetCode

CERTIFICATIONS

- Certification in Java Data Structures and Algorithms

EXTRA-CURRICULAR ACTIVITIES

- Participated in coding challenges and technical discussions
